WORK EXPERIENCE

Software Developer
UNOLO | FIELD FORCE MANAGEMENT   04-2021 - NOW

I was responsible for developing and maintaining the Admin Panel of the company website from scratch which is essential for Company's revenue. My duties included working with the back-end developers to ensure that all the new and legacy functionalities of the website were functioning properly. I also took care of all the functional and visual aspects of the website design, including layout, colors, and graphics. Additionally, I oversaw the testing of the website to ensure that it was compatible with all major browsers.

Front End Developer L1
AXENO CONSULTING   02-2020 - 04-2021

My role was working on both the front-end and back-end of web applications, as well as developing new features and maintaining existing ones. I also collaborated closely with other team members, such as designers and front-end developers, to ensure that the final product was of the highest quality.
